ABOUT VJS

VJS Facility Management

Vankan Security Services Pvt.Ltd. sister concern

In 2013, the Vankan Group entered into the mechanized cleaning business with support of VJS Facility Management under the overall management by Director Ms. Shalini in Pune, now it is covering in many major cities in India. This support provides knowledge, access to a wide variety of cleaning and janitorial services extending to customers in commercial, hospital, institutions and industrial spaces. The company was started with separate management and operating team. The business now has a national footstep and services with 50 customers across 20 towns, through a team of over 50 employees. We focus on clients in segments where high standards of cleanliness are required including IT/ITeS, retail chains, large commercial spaces, hospitals, hotels, institutions and industries.

VJS offers its services through two products:

VJS Clean Basic

VJS Clean Basic is a service designed and delivered around the input desired by customers. The service works on a fixed cost plus basis, by utilizing basic equipment and products.

VJS Clean Plus

VJS Clean Plus is a service which is designed and delivered on an output basis (per square feet, fixed price, fixed KPI basis) where the inputs are decided by the company on the basis of a scientific time and motion study. This model results in savings to the customer and also much higher efficiency & quality of output.

We ensure that all equipment and products used by us are environment friendly.

Our key differentiators:

- Pan India services spread across 50 towns in India
- Options of an input based & output based delivery model
- Cost-effective quality solutions through the use of specialized equipment
- Assure compliances and documentation at pers@vjsfacility.com
